

## 2001: Not a Space Odyssey

– A High Holy Day Story from Anne Luder

---

I remember High Holy Days at NEMS as an extremely busy time of year, both Ramon and I were heavily involved. Transporting items from A to B, setting up and me baking on average 40 Honey Cakes for consumption by shul members over the Days of Awe.

Yom Kippor 2001 stands out, it fell on on 27th September, not long after 9/11. It was the first time Ramon had missed being in Shul being in the operating theatre at Barts Hospital.

Thankfully he was inscribed in the Book of Life and the following year he was back in Shul taking part in the service once more.
